# Espresso ratio card

*Starting points, not rules*

## Styles and typical time

| Style | Ratio (dose:yield) | Time |
|---|---|---|
| **Ristretto** *18 g in, 18 to 27 g out* | 1:1 to 1:1.5 | 15 to 25 s |
| **Normale** *18 g in, 36 g out* | about 1:2 | 25 to 30 s |
| **Lungo** *18 g in, 45 to 54 g out* | 1:2.5 to 1:3 | 35 to 50 s |

*Time is measured from when you start the pump.*

## Quick rules

- Weigh the dose and weigh the yield in the cup.
- Grind size mostly sets the time: finer is slower.
- Yield sets strength and balance: longer is lighter.
- Fast and sour or thin: grind finer. Slow and bitter or harsh: grind coarser.
- Change one thing at a time.

## Dose to yield lookup (grams)

| Dose in | Yield at 1:2 | Yield at 1:2.5 |
|---|---|---|
| **14** | 28 | 35 |
| **15** | 30 | 37.5 |
| **16** | 32 | 40 |
| **17** | 34 | 42.5 |
| **18** | 36 | 45 |
| **19** | 38 | 47.5 |
| **20** | 40 | 50 |
| **21** | 42 | 52.5 |
| **22** | 44 | 55 |

*Use a dose your basket is made for. Check its markings or manual.*
